AUTHORITY: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Prohibited Transaction Exemption 1990-1 (PTE 90-1), Insurance Company Pooled Separate Accounts information collection. PTE 90-1 provides an exemption from certain Employee Retirement Income Security Act of 1974 (ERISA) provisions relating to transactions involving insurance company pooled separate accounts in which employee benefit plans participate. Without the exemption, Internal Revenue Code section 4975(c)(1) and ERISA sections 406 and 407(a) might prohibit a party in interest to a plan from furnishing goods or services to an insurance company pooled separate account in

which the plan has an interest or prohibit engaging in other transactions. See 26 U.S.C. 4975(c)(1) and 29 U.S.C. 1106 and 1107(a). Under the exemption, a person who is a party in interest to a plan that invests in a pooled separate account, such as a service provider, may engage in otherwise prohibited transactions with the separate account if the plan's participation in the separate account does not exceed specified limits and other conditions are met. These other conditions include a requirement that the party in interest not be the insurance company, or an affiliate thereof, that holds the plan assets in its pooled separate account or other separate account. The terms of the transaction to which the exemption is applied must be at least as favorable to the pooled separate account as those that would be obtained in a separate arms-length transaction with an unrelated party, and the insurance company must maintain records of any transaction to which the exemption applies for a period of six years. This ICR covers the recordkeeping requirement. Internal Revenue Code section 4975(c)(2) and ERISA section 408(a) authorize this information collection. See 26 U.S.C. 4975(c)(2) and 29 U.S.C. 1108(a).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210-0083.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on October 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on June 17, 2015 (80 FR 34696).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1210-0083. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or

other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
